SIKA-DESIGN A PROUD TRADITION OF CRAFTMANSHIP

Our passion for and understanding of rattan dates back decades. We have been around long enough to call ourselves Scandinavia's oldest producer of rattan and wicker furniture.

The story of our company begins in 1942, when Ankjær Andreasen produced the first batch of baskets, lamps, flower tables and other smaller interior items made of rush and willow. In the 1950's, Ankjær expanded his production to include a series of furniture made from rattan, and the company Sika-Design was firmly established.

The rattan was imported from the Far East, and Ankjær travelled there to purchase the rattan for his wicker makers in Denmark. During a trip in 1972, he was so impressed by the skilled wicker makers that he decided to establish a wicker furniture factory in Malaysia. Since then, the Far East has been essential to our production of furniture.

Today, we manufacture our furniture in our own factory in Indonesia. Ankjær's son, Knud Andreasen, took over the company in 1983, however Ankjær continued his daily "inspections" until his death in 1997. On my 10th birthday, my father allowed me to attend a fair where Sika-Design was exhibiting a series of rattan furniture. On that day, I knew I wanted to be a part of his company, and my passion for rattan furniture began. Since 1996, my father and I have worked side by side bringing Sika-Design into the new century with great design, while never letting go of our strong heritage of great craftsmanship.

In our ICONS and Exterior collection you will find designs by world renowned architects and designers as Arne jacobsen, Nanna Ditzel, Franco Albini, Viggo Boesen and R. Wengler.

Sika-Design respects human rights and complies with the SA8000 standard for social accountability, and we demand the same commitment from our suppliers. Products from Sika-Design are developed and marketed in accordance with our management system for environment and social responsibility ISO 14001/2015 and SA8000/2014.

LOUISE ANDRÉAS 3rd generation, Sika-Design

3 GENERATIONS WITH **DASSSION** FOR RATTAN

SUSTAINABILITY A VALUE CLOSELY WOVEN INTO SIKA-DESIGN'S HISTORY

As one of the world's oldest and largest producers of rattan furniture, sustainability has always been a part of Sika-Design's DNA. Since 1942, rattan has been key in sustainable furniture production.

In recent years, rattan has experienced a growing revival. This growth is playing an integral part in the UN's Sustainable Development Goals and going green awareness. At Sika-Design, we are delighted to be contributing to this growth and revival.

Take a tour with us through the world of rattan furniture.

RATTAN & THE RAINFOREST FACTS ABOUT RATTAN

- Rattan is the second fastest growing material for furniture production, and regenerates in the span of 5 to 7 years.
- Rattan contributes to preserve the rainforest, as the plant grows like vines on the trees.
- Rattan absorbs CO2 and generate clear air and produces up to 35 % more oxygen than a tree.
- Opposite bamboo, rattan is not hollow, but solid. It is strong, bendable and very durable. It is perfect for furniture production.
- Rattan is nearly impossible to wear out and lasts for many generations.
- Most (80 %) of the world's rattan resources grow in Indonesia near Sika-Design's factories.
- Rattan is environmentally friendly and easy to work with. The rattan stem only needs to be steamed for 10-15 minutes, before it can be formed.
- All furniture from Sika-Design is handcrafted and weaved, using only few machines in the process.
- Glue is not necessary in the production and Sika-Design only uses toxin free varnishes.
- Rattan comes in 600 different variants, from these 40 can be used in the production of furniture. Sika-Design only uses the best quality rattan: Tohiti and Manau.

ICONS hotel sanders, denmark

Beautiful and charming hotel Sanders in Copenhagen is styled with Charlottenborg and Belladonna from our Icons collection. Charlottenborg is designed by Arne Jacobsen in 1936 and handcrafted in the natural material rattan. Belladonna is designed by the famous italian designer Franco Albini in 1951, and handcrafted in Manau and core rattan. All our models can be fitted with custom fabric.

UPHOLSTERY AND CUSHIONS MANUFACTURED IN DENMARK

The quality of good craftsmanship is also felt in our cushions, where we draw on great experience and expertise when we decide the shape and characteristics of each cushion.

Since the 1950's when Ankjær started his furniture production, we have developed customized cushions for all our models in our own facilities in Denmark.

Our high-quality upholstery and seat cushions are made to order and can be chosen from a broad variety of high quality fabrics and styles – even your own choice.

We are also capable of making custom made cushions. So if you have a special request or a specific need, feel free to ask for your possibilities. We make cushions for interior and exterior use.

DOWNLOAD CENTER

On our website, you will find our image and download center. Here you have access to relevant files, such as high-resolution images and 3D files.

IMAGES IN HIGH RESOLUTION

You find images of all products in high resolution. In addition to in-situ images, you will find packshots, so you easily can integrate all products in your projects.

Downloads This is the download page for Sika-Design. Her

3D FILES

For selected products we can provide 3D data. We provide our files in .DWG, .OBJ and .MAX format so you can import the data directly into your planning program.

FABRIC COLOUR & STYLES

Our fabric styles and colours are available as downloads. Use our download center as a tool to have a complete overview of our fabrics.

FACT SHEETS

Our factsheets contain relevant information about our products. You will find a factsheet for selected bestselling items in the download-area.

ELECTRONIC CATALOGUES

Our catalogues are available in a digital version and can be browsed online. They are available as PDF for easy download or for sending as an e-mail attachment.

COLOUR & MATERIAL SAMPLES

We have several different materials and colour styles. We have made high resolution PDF documents for each of our collections showing which colour and material is available.

MATERIALS & MAINTENANCE

NATURAL RATTAN

Rattan is a natural climbing plant that grows in the Indonesian rainforest. Rattan grows naturally without disturbing the existing structure and balance in the rainforest. Rattan is strong, lightweight, flexible and durable. MAINTENANCE: Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

TEAK TABLES & TOPS

Only premium sustainable plantation-grown teak from Indonesia is used for the manufacture of our teak tables. All teak wood sourcing is overseen by the Indonesian government, which means that no healthy tree too immature, or too small is removed from the forest. MAINTENANCE: Wash with water mixed with mild soap using a sponge or medium brush. If you wish to treat your teak furniture, use teak oil – notice that this will make the wood darker.

ARTFIBRE [©]

Sika-Design ArtFibre[®] is a fibre made of dyed and hard-wearing polyethylene. It is ideal for outdoor use in any climate as it is temperature and UV-resistant. The ArtFibre[®] is flexible and, when woven, provides optimal comfort and a structure that is strong and can maintain its shape for years on end. MAINTENANCE: Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

ALU RATTAN [©]

All our aluminium furniture is powder coated. The powder coating ensures a surface resistant to knocks and scratches. The furniture is well-suited to be left outside all year long and is easy to clean. MAINTENANCE: Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

AVANTGARDE [©] STEEL

Our Avantgarde collection is very unique due to the fact that the frame is made of steel. The steel is specially treated and welded to last for decades. This unique treatment enables the furniture to stand outside all year long enduring all elements of nature. MAINTENANCE: Wash with water mixed with mild soap and remove stains with a medium brush, or use pressure washing.

LLOYD LOOM

Loom is the name of a unique woven material, which consists of a twisted Kraft paper that is partly reinforced with steel wire. It is smooth to the touch, with no sharp joints in the weave, it does not bend, distort or creak when used and it is remarkably strong and durable. The frames of all our Loom products are made in natural rattan.

TEMPOTEST [®] FABRICS

Our Italian Tempotest^{*} fabrics are treated with a special type of finishing. During the treatment process, the finish is deposited not only on the surface of the fabric, but envelopes each individual fibre, forming an impenetrable barrier without compromising the fabric's breathability. The HI- Clean finishing makes Tempotest^{*} fabrics water and oil repellent, proof against rotting and immune to the formation of mould and fungus.

OUICKDRYFOAM®

Urecel QuickDry is advanced high-performance foam designed specifically for outdoor cushions. The large, open pores in Urecel QuickDry allow water to drain very rapidly and fresh air to circulate freely and continuously. This foam is the perfect seating solution for places with regular rainfall and high humidity.

GLASS TOPS

All our glass tops , which are made from 8 mm tempered glass is easy to clean and more durable than ordinary glass. Handle with care! A damaged edge or scratched surface can in exceptional cases cause the glass to crack suddenly. However, never into sharp fragments, only into small pieces. Avoid collisions from the side - this is where the glass is most vulnerable. MAINTENANCE: Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

VERSALITE TOPS

Our artificial contract table tops are easy to maintain because of its smooth, scratch free and hygienic surface. These artificial tops are strong and stable and they are resistant to all weather conditions. These tops are the perfect choice for restaurants and hotels. MAINTENANCE: Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

SUSTAINABILITY AT THE HIGHEST LEVEL

When you sit down in a piece of furniture from Sika-Design, it is not only comfortable and durable, it is also made from one of nature's most environmentally friendly materials.

One of the natural attributes of the rattan plant, is to form a symbiosis with the surrounding trees. Rattan need the rainforest to thrive. As a natural raw material, rattan grows very quickly and is usually harvested by hand by local farmers - the most eco-friendly way.

A TRADITION-BOUND CRAFT

Sika-Design's factories are located in Indonesia, where the wickerwork is a tradition-bound craftsmanship passed down from generation to generation. The harvest is done by hand, using only a few machines in the process. The rattan stems only need to be steamed for 10-15 minutes, before it can be formed and weaved by the skillful weavers. At Sika-Design we value original craftsmanship, which combines proud weaving traditions with a sustainable and modern production, where social responsibility is valued high. We are certified with the international ISO14001 and SA8000 standards. All Sika-Design production complies with the local law (Indonesian Legal Wood).

TRANSPORTATION BY SHIP

We make an effort with every step, so that our furniture – both during the production, transportation and in your home – affects the environment as little as possible. We transport our products with ship directly from our factories to large exporting markets such as Australia, South Africa, South America and USA.

By shipping direct, we are able to reduce time in transit as well as our carbon footprint. Many of our products are stackable, which also contributes to our mission to reduce Sika-Designs's carbon footprint.

TV/A

HOW SIKA-DESIGN WORKS WITH UN'S SUSTAINABLE GOALS

At Sika-Design, we constantly optimize the processes in a sustainable direction through a general focus on responsible usage and production, which aligns with UN's Sustainable World Goal no. 12. This is where we can make a change.

Since Sika-Design was founded in 1942, sustainability has been a natural and integrated part of our mindset. Throughout the years, we have developed a systematical and focused effort to ensure as little as possible strain on the environment through the optimization of production processes and sustainable logistics, transportation and distribution. As a furniture manufacturer we actively support UN's Sustainable World Goal 12, where we can make a change. When there is a natural connection between Sika-Design's core values and business, we take a proactive initiative to protect our employees, society and the environment locally and globally.

"When I started in the furniture business many years ago, I was intrigued by the rattan material's design possibilities. This fascination has only become even greater in my ongoing awareness of the material's exceptional sustainability".

LOUISE ANDREASEN 3rd generation, Sika-Design

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

ENSURE SUSTAINABLE CONSUMPTION AND PRODUCTION PATTERNS

CONTRACT BUSINESS

With furniture from Sika-Design you can create a contemporary or classical exterior space with our luxury synthetic rattan exterior furniture. Sika-Design interior rattan furniture allows you to create an interior space with lightweight but very strong furniture, made from one of the worlds most sustainable materials. Our collections are designed to live long. Whether it is our contemporary or more classical furniture collections, you are guaranteed continuity and stability.

ENVIRONMENT & SOCIAL ACCOUNTABILITY POLICY

Sika-Design strives to supply sustainable and comfortable quality furniture manufactured with respect for the environment and social accountability. We attempt to improve our efforts on behalf of the environment on an ongoing basis and take responsibility for the people who create our furniture. We aim to minimize the consumption of resources and prevent pollution in our supply chain.

Sika-Design does not accept child labour, respect human rights and complies with the SA8000 standard for social

accountability, and we demand the same commitment from our suppliers. We focus on design and comfort and also take the environment into account when we choose our raw materials and develop new production methods and products.

Sika-Design complies with environmental and labour legislation and demand that our suppliers comply with their legislations within these areas.

STRONG PARTNER - MORE THAN 75 YEARS

Our passion and know-how dates a long way back - we have been around long enough to call ourselves Scandinavia's oldest manufacturer of rattan and wicker furniture. Sika Møbler was established in 1942 by Ankjær Andreasen. He only worked with the best wicker makers and together they perfected the art of wicker. His son Knud Andreasen took over the company in 1981, and in 2013 3rd generation Louise Andreasen became the main shareholder in Sika-Design and the legacy has continued. Each piece of furniture is still handcrafted with the same tradition for craftsmanship, comfort and quality that has characterized Sika-Design for the past 70 years.

STACKABLE & COMFORTABLE

Several of our chairs are stackable, making them easy to store away during winter or after a busy day, getting ready for closing time at the café. The Scandinavian minimalist design is suitable everywhere. The structure of the Artfibre[®] and the woven seats provide flexibility and optimum comfort.

FINE CRAFTMANSHIP & MODERN TECHNOLOGY

Sika-Design selects its materials using the strictest criteria in the industry. The factory is a place where experts in handcraft use their expertise and carry out their handiwork with meticulous attention to detail. Sika-Design work with the finest quality of natural rattan and the newest technology in aluminum – also called AluRattan[®]. Sika-Design furniture is designed to withstand everything that nature can throw at it – rain, cold, heat, UVrays and even snow. The factory of Sika-Design is a place of innovation and where everyone involved take pride in their work.

TEAK EXTERIOR

Only premium sustainable plantation-grown teak from Indonesia is used for the manufacture of our teak tables. The features of premium grade teak are a straight grain structure, the absence of knots, splits or cracks and an even overall color, which will turn grey when used outside.

What is Indonesian Legal Wood?

All our teak tables carry the Indonesian Legal Wood logo. All teak wood sourcing is overseen by the Indonesian government. This means that no healthy tree too immature,
