# SIKA-DESIGN

## A PROUD TRADITION OF CRAFTSMANSHIP

### OUR HISTORY

Our passion for and understanding of rattan dates back decades. We have been around long enough to call ourselves Scandinavia's oldest producer of rattan and wicker furniture.

The story of our company begins in 1942, when Ankjær Andreassen produced the first batch of baskets, lamps, flower tables and other smaller interior items made of rush and willow. In the 1950's, Ankjær expanded his production to include a series of furniture made from rattan, and the company Sika-Design was firmly established.

The rattan was imported from the Far East, and Ankjær travelled there to purchase the rattan for his wicker makers in Denmark. During a trip in 1972, he was so impressed by the skilled wicker makers that he decided to establish a wicker furniture factory in Malaysia. Since then, the Far East has been essential to our production of furniture.

Today, we manufacture our furniture in our own factory in Indonesia. Ankjær's son, Knud Andreassen, took over the company in 1983, however Ankjær continued his daily "inspections" until his death in 1997. On my 10th birthday, my father allowed me to attend a fair where Sika-Design was exhibiting a series of rattan furniture.

On that day, I knew I wanted to be a part of his company, and my passion for rattan furniture began. Since 1996, my father and I have worked side by side bringing Sika-Design into the new century with great design, while never letting go of our strong heritage of great craftsmanship.

### EXTERIOR

Even our history begins with rattan for the interior, we have also been designing and producing furniture for the exterior for more than 15 years. We launched our first collection for the exterior in 2003, since then we have added several collections, and today most of our original rattan designs are also available for the exterior

### IMPORTANT POLICY

Sika-Design respects human rights and complies with the SA8000 standard for social accountability, and we demand the same commitment from our suppliers. Products from Sika-Design are developed and marketed in accordance with our management system for environment and social responsibility ISO 14001/2004 and SA8000/2014.

# OUR DESIGNERS

## PIONEERS WITHIN RATTAN AND FURNITURE DESIGN

Arne Jacobsen, Nanna and Jørgen Ditzel, Franco Albini and Viggo Boesen were all pioneers of their time – they broke new ground when they made experimental shapes of the sturdy material rattan and wicker and created sculptural and timeless Icons. Sika-Design is proud to have the rights for these designs, and to continue their experiments. We have transformed the original rattan items in to full exterior furniture, which can withstand the changing weather conditions. For our exterior collection, the models are made in hand bend aluminium and woven with ArtFibre.

---

## NANNA & JØRGEN DITZEL (1923-2005) (1921-1961)

Nanna Ditzel graduated in Furniture design from The Royal Danish academy of Fine Arts in 1946.

She quickly established her own design studio together with her husband Jørgen Ditzel. Among her designs are textiles for Kvadrat and silverware for Georg Jensen.

## ARNE JACOBSEN (1902-1971)

Arne Jacobsen, architect and designer. Educated at the Royal Danish Academy of fine Arts, School of Architecture in Copenhagen. His designs are famous worldwide, and his first design ever was a rattan chair.

## FRANCO ALBINI (1905-1977) & FRANCA HELG (1920-1989)

Franco Albini was an Italian Neo-Rationalist architect and designer. In 1929 he began his professional career working for Gio Ponti.

Franca Helg was an Italian designer and architect. Graduated from the Politecnico di Milano in 1945, Franca Helg was active both in the field of architectural planning and in industrial design, with important project interventions often in collaboration with Franco Albini, with whom she was for long associated professionally, from 1951 until the death of Albini in 1977.

## VIGGO BOESEN (1907-1985)

Viggo Boesen embarked on rattan furniture design combining modernist style with the hard ware qualities of the rattan material. Viggo Boesen's FOX chair won a Danish design competition in 1936.

# EXTERIOR

## ICONIC RATTAN DESIGNS MADE FOR EXTERIOR

In 2015, we introduced the collection, Exterior, which is based on a new exciting material that offers possibilities and expressions for our existing models. The new material ALU-rattan consists of a strong aluminium frame woven with ArtFibre. The material is maintenance free and can withstand all weather conditions.

This means that original rattan models previously only suitable for indoor use now can be used in the garden, on the terrace or the balcony. The first of our original models in this collection are the Fox chair and the Albini Ottoman.

CHILL LOUNGE CHAIR - DESIGNED BY NANNA DITZEL IN 1961 - ND-E25-NAT

#### THE PERFECT LOUNGE CHAIR

The lounge chair is originally designed for indoor use, however rumor has it that Nanna Ditzel herself used hers on the terrace in her vacation home. The chair along with the footstool ties an organic design language, with minimalistic features and suggests indulgence and relaxation - whether this is indoors or outdoors.

HANGING EGG CHAIR - DESIGNED BY NANNA & JØRGEN DITZEL IN 1959 - ND-E85-NAT

PARIS CHAIR - DESIGNED BY ARNE JACOBSEN IN 1925 - AJ-E33-NAT

Arne Jacobsen was born on 11th of February 1902 in Copenhagen. He first hoped to become a painter, but Jacobsen was admitted to the Architecture School at the Royal Danish Academy of Fine Arts from 1924 to 1927. He studied under Kay Fisker and Kaj Gottlob, both leading architects and designers.

The Paris Chair™ was a part of the inventory in The House of the Future, which is why the Paris Chair™ is also called "Chair of the Future".

# GEORGIA GARDEN

CHARMING DESIGN FOR THE GARDEN

The Georgia Garden collection is inspired by the colonial style from the old British colonies. We have created the design based on drawings found in old books and postcards.

Georgia Garden is cosy and romantic and the entire collection fit perfectly with a garden as backdrop. The collection made from ArtFibre is available in classic antique.

# AVANTGARDE

## ELEGANT SCANDINAVIAN DESIGN

Avantgarde is a collection of furniture designed for the exterior living. The collection is hand-woven of the maintenance-free and UV-resistant Art-Fibre, which is mounted on a stable hot-dipped galvanized steel frame. This makes for a piece of furniture that can endure all kinds of weather.

The design is simple and minimalistic with focus on seat comfort and functionality. The result is solid elegance with an exclusive touch. Although the collection is primarily for outdoor use, it is also sold for indoor use, as the Scandinavian minimalist design fits many homes perfectly.

# DOWNLOAD CENTER

Under 'About Sika-Design' on our website, you will find our image and download center. Here you have access to relevant files, such as high-resolution images and 3D files.

## IMAGES IN HIGH RESOLUTION

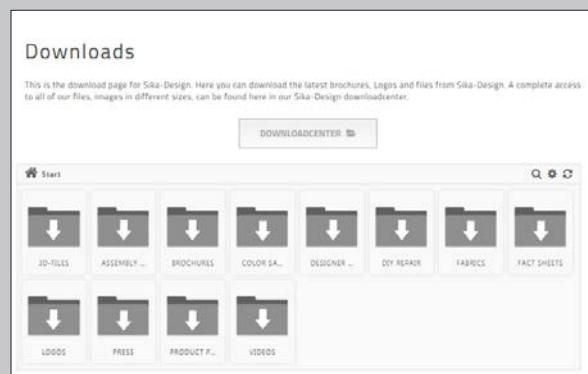

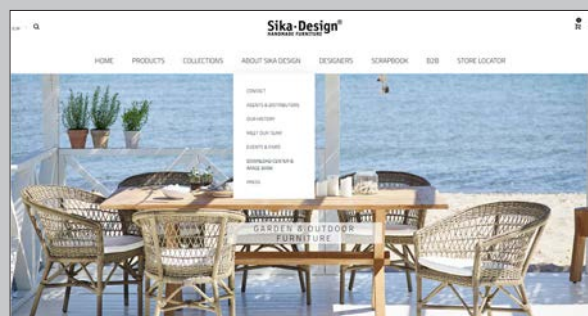

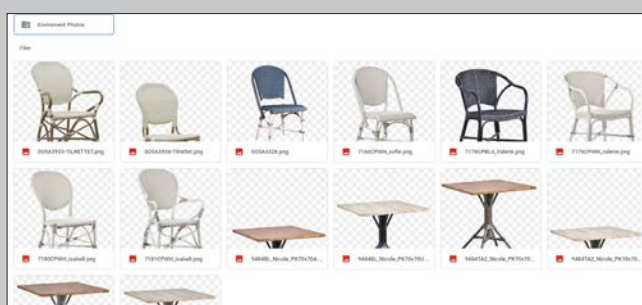

You find images of all products in high resolution. In addition to mood images, you will find clippings, so you easily can integrate all products in your projects.

## 3D FILES

For selected products we can provide 3D data. We provide our files in .DWG, .OBJ and .MAX format so you can import the data directly into your planning program.

## FACT SHEETS

Our factsheets contain relevant information about our products. You will find a factsheet for selected bestselling items in the download-area.

## FABRIC COLOUR & STYLES

Our fabric styles and colours are available as downloads. Use our download center as a tool to have a complete overview of our fabrics.

## ELECTRONIC CATALOGUES

Our catalogues are available in a digital version and can be browsed online. They are available as PDF for easy download or for sending as an e-mail attachment.

## COLOUR & MATERIAL SAMPLES

We have several different materials and colour styles. We have made high resolution PDF documents for each of our collections showing which colour and material is available.

# MATERIALS & MAINTENANCE

## ARTFIBRE<sup>®</sup>

Artfibre is used in our Exterior, Affaire, ALU Affaire and Georgia Garden collections. Sika-Design ArtFibre<sup>®</sup> is a fibre made of dyed and hard-wearing polyethylene. It is ideal for outdoor use in any climate as it is temperature and UV-resistant. The ArtFibre<sup>®</sup> is flexible and, when woven, provides optimal comfort and a structure that is strong and can maintain its shape for years on end.

**MAINTENANCE:** Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

## ALU-RATTAN<sup>®</sup>

ALU-rattan is used in our Exterior and ALU Affaire collections. All our aluminium furniture is powder coated. The powder coating ensures a surface resistant to knocks and scratches. The furniture is well-suited to be left outside all year long and is easy to clean.

**MAINTENANCE:** Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

## TEAK TABLES & TOPS

Only premium sustainable plantation-grown teak from Indonesia is used for the manufacture of our teak tables. The features of premium grade teak are a straight grain structure, the absence of knots, splits or cracks and an even overall color, which will turn grey when used outside.

What is Indonesian Legal Wood?

All our teak tables carry the Indonesian Legal Wood logo. All teak wood sourcing is overseen by the Indonesian government. This means that no healthy tree too immature, or too small is removed from a forest.

**MAINTENANCE:** Wash with water mixed with mild soap and remove stains with a sponge or medium brush. If you wish to treat your teak furniture, we recommend using teak oil – be aware that this will make the wood darker!

## AVANTGARDE<sup>®</sup> STEEL

Our Avantgarde collection is carefully hand woven with ArtFibre on satinised powder coated hot dip galvanized metal frame and is; maintenance free, weatherproof, colourfast, uv-resistant, durable to all temperatures, washable, recyclable.

**MAINTENANCE:** Wash with water mixed with mild soap and remove stains with a sponge or medium brush. Can also be cleaned by using a high-pressure water gun.

## GLASS TOPS

All our glass tops, which are made from 8 mm tempered glass is easy to clean and more durable than ordinary glass. Handle with care! A damaged edge or scratched surface can in exceptional cases cause the glass to crack suddenly. However, never into sharp fragments, only into small pieces. Avoid collisions from the side - this is where the glass is most vulnerable

**MAINTENANCE:** Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

## VERSALITE TOPS

Our artificial contract table tops are easy to maintain because of its smooth, scratch free and hygienic surface. These artificial tops are strong and stable and they are resistant to all weather conditions. These tops are the perfect choice for restaurants and hotels.

**MAINTENANCE:** Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

## TEMPOTEST<sup>®</sup> FABRICS

Our Italian Tempotest<sup>®</sup> fabrics are treated with a special type of finishing. During the treatment process, the finish is deposited not only on the surface of the fabric, but envelopes each individual fibre, forming an impenetrable barrier without compromising the fabric's breathability. The HI- Clean finishing makes Tempotest<sup>®</sup> fabrics water and oil repellent, proof against rotting and immune to the formation of mold and fungus.

# UPHOLSTERY AND CUSHIONS

## MANUFACTURED IN DENMARK

The quality of good craftsmanship is also felt in our cushions, where we draw on great experience and expertise when we decide the shape and characteristics of each cushion.

Since the 1950's when Ankjær started his furniture production, we have developed customized cushions for all our models in our own facilities in Denmark.

Our high-quality upholstery and seat cushions are made to order and can be chosen from a broad variety of high-quality fabrics and styles – even your own choice.

We are also capable of making custom made cushions. So if you have a special request or a specific need, feel free to ask for your possibilities. We make cushions for interior and exterior use.

# FABRIC COLLECTION
