SIKA DESIGN

A PROUD TRADITION OF CRAFTSMANSHIP

Our passion for rattan and know-how dates a long way back – we have been around long enough to call ourselves Scandinavia's oldest producer of rattan and wicker furniture.

The story of our company begins in 1942 when Ankjær Andreasen produced the first batch of baskets, lamps, flower tables and other smaller interior items made of rush and willow. In the 1950s he expanded his production to include a series of furniture made from rattan, and the company Sika-Design was firmly established.

The rattan was imported from the Far East and Ankjær travelled there to buy rattan for his wicker makers in Denmark. During a trip in 1972, he was so impressed by the skilled wicker makers that he decided to establish a wicker furniture factory in Malaysia. Since then, the Far East has been essential to our production of furniture, and today we manufacture our furniture in our own factory in Indonesia.

Ankjær's son Knud Andreasen took over the company in 1983, however Ankjær still continued his daily "inspection" rounds in the company until his death in 1997.

"On my 10th birthday, my father allowed me to attend a fair where Sika-Design was exhibiting a series of rattan furniture. On that day, I knew I wanted to be a part of his company, and my passion for rattan furniture was started. Since 1996 my father and I have worked side-by-side bringing Sika-Design into the new century with great design, while never letting go of our strong heritage of great craftsmanship."

Sika-Design respects human rights and complies with the SA8000 standard for social accountability, and we demand the same commitment from our suppliers. Products from Sika-Design are developed and marketed in accordance with our management system for environmental and social responsibility ISO 14001/2004 and SA8000/2014. Certified by Bureau Veritas Certification.

LOOM LIVING

A NEW INTERIOR COLLECTION

Loom is the name of a unique woven material, which consists of a twisted Kraft paper that is partly reinforced with steel wire.

Our Loom furniture is similar to our fine, traditional handcrafted rattan furniture, it is smooth to the touch, with no sharp joints in the weave, which can snag clothing, it does not bend, distort or creak when used and it is remarkably strong and durable. The frames of all our Loom products are made in natural rattan.

Actually, Loom furniture was the preferred furniture of the restaurateurs, cruise liners and even zeppeliners of the 1930's as this was a new revolutionary way to make wicker furniture.

In the 1990's this was replaced by synthetic plastic weave, but today – as all good things - loom is on the return to once again become a beloved and preferred choice of furniture.

UPHOLSTERY & CUSHIONS

MANUFACTURED IN DENMARK

The quality of good craftsmanship is also felt in our cushions, where we draw on great experience and expertise when we decide the shape and characteristics of each cushion.

Since the 1950's when Ankjær started his furniture production, we have developed customized cushions for all our models in our own facilities in Denmark.

Our high-quality upholstery and seat cushions are made to order and can be chosen from a broad variety of high quality fabrics and styles – even your own choice.
